Natural Resources Committee

Consisting of three councilors whose duties and responsibilities shall include the investigation and report on all matters coming before the city council concerning the preservation and enhancement of all natural resources including, but not limited to, issues such as water, sewers and sewage treatment facilities, aquifer protection, and solid waste disposal. This committee shall work in conjunction with such member as appointed by the president to serve as liaison to the conservation commission. This committee shall have initial jurisdiction over the setting of sewer rates.
